

 SPRING 2018 NEWS

InterFaith Staff Member Is a ‘Bright Shining Star’ Among Her Patients

Kat Blake had worked as a dispensing optician for 42 years with great insurance and thoroughly enjoyed her job. “It was very gratifying and important to me,” she recalls.

But at 62 years old she lost her job and overnight was left without health insurance. Kat had been diagnosed with high blood pressure and diabetes, and found herself with no place to turn. She was referred to InterFaith by another health care agency and came in hoping to find help.

“I remember driving up and down Broadway and seeing the clinic. When I came in everyone there was very professional and personable. It wasn’t as hurried as other offices I have been to before. But I was nervous to meet my new doctor because when I lost my insurance, *I lost my doctor.*”

Kelly McIntyre, one of InterFaith’s faithful Adult Nurse Practitioners, became Kat’s nurse practitioner...and the rest is history.

“Kelly saw my needs and has helped me get healthy again! I was able to apply for the patient assistance program and now I can get my medicines at a price I can afford.” Her love for the clinic is obvious as she shared, “Every time I go in there they are asking about my family — they really *care* about you at InterFaith. And Kelly is such a bright shining star in my life. I just love her!”

We are grateful for the faithful and compassionate staff we have at InterFaith and for patients like Kat, whose passion and gratitude for the clinic are contagious.

Thanks to InterFaith, Kat was able to get affordable health care and her medications when she lost her job with health insurance benefits

From our Executive Director

What does spring time mean for you? For me it means a lot of things. Because of my personal faith, the first thing I think about is Easter and the celebration of the resurrection. Next I think about warm weather, green grass, flowers, and outdoors activities. For some, spring break is at the top of your list. With all of these things, *HOPE* is a major part of spring. Hope for new beginnings. Hope for renewed activities and perspectives.

Hope is exactly what you give each of our patients. Walter hopes with the new medication you assisted in providing that his congestive heart failure will improve and he can return to work. Susan hopes the exercise classes you help provide will enable her to reduce her diabetes medication. Each of our patients hopes for a better tomorrow. Thank you for giving them the opportunity to improve their lives but most of all – thank you for giving them *hope*.

Melissa H. Knight
